

TacPrep News Letter

Mission

Our mission is to provide high level and affordable preparedness training to both civilians and professionals. We offer a wide array of training courses for all skill levels and can customize our training to meet the needs of anyone or any organization. TacPrep recognizes the need for everyone to be prepared and has a building block approach in making sure everyone not only understands the training they receive, but are ready to move on to the next level.

Recent Events

There have been several tragic events recently, from the cowardly attacks on Law Enforcement and Paris, to a two year old killing their mother in a Walmart with her own concealed carry firearm.

Our thoughts and prayers go out to the friends and family of those involved in these events; as well as the many other events that have occurred recently.

Training Special

We are happy to help fulfill New Year's resolutions and prepare those who received new firearms for the Holidays. Book a set of three live fire shooting classes by February 13th, and pay only \$150.00, which is a total savings of \$30.00. Each two hour course is geared specially towards the beginner and moderately skilled shooter.
